

AN INTRODUCTION INTO TEQUILA AND MEZCAL

An agave and tequila enthusiast, Bar Manager, **Marc Pérez** style is defined by classic and minimalist approach, guided by the philosophy of “less is more”. He firmly believes in the value of simplicity and quality in every detail of his work.

Agave:// is a succulent plant known for its fleshy leaves, essential in crafting distilled spirits such as mezcal and tequila. Its wide variety of species contributes unique flavor profiles -herbal, earthy, smoky, shaped by soil and climate. By extracting the fermentable juice from the heart -followed by distillation- results in complex beverages that reflect both their terroir and artisanal methods.

At Ojo, this journey into agave runs even deeper: the restaurant proudly houses the most notable collection of tequilas and mezcals
